DIVING talks – Portugal 2021 – International Diving Congress  
Tróia, October 8 – 10

## PRESS RELEASE

### DIVERS ARE CALLING IT “THE MOST IMPORTANT DIVING EVENT IN 2021”

The event organizers joke about it, saying, “it’s the only one in 2021”.  
But the facts speak differently.

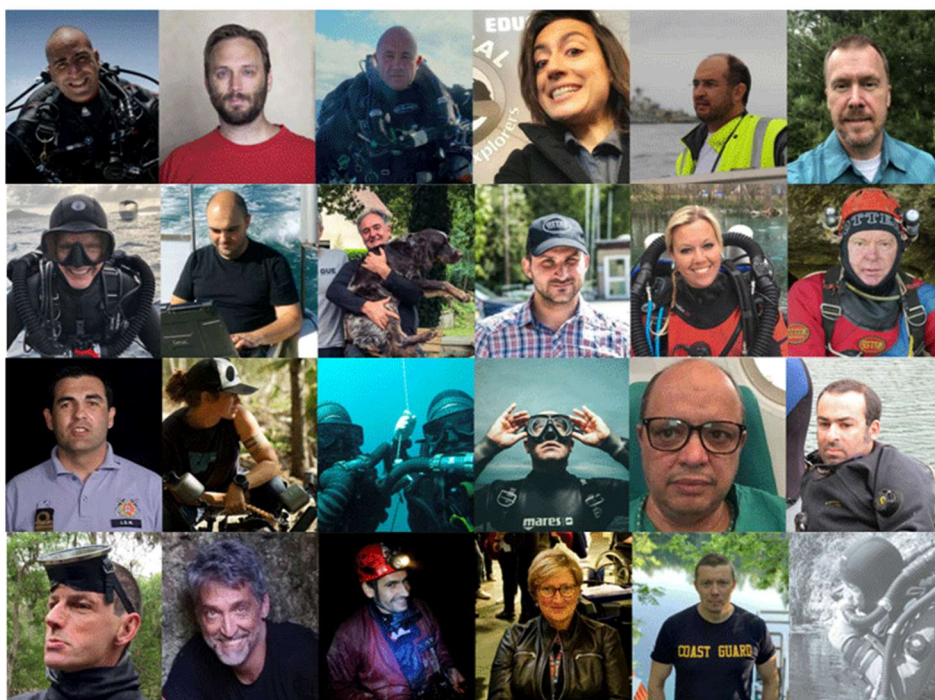

Diving Talks – Portugal 2021 – International Diving Congress will take place in Portugal from October 8 to 10 at the Tróia Peninsula, a gigantic sand dune forming over thousands of years, with the Atlantic Ocean to the west and the West Sado estuary to the east. This privileged setting, with beach, dune, marsh, estuary and pine forest environments, is a fantastic location for the gathering of the diving community.

# DIVINGtalks

The attractiveness of the Diving Talks International Congress arises mainly from the Speakers panel. Divers, researchers, explorers such as Cristina Zenato, Jill Heinerth, Natalie Gibb, Sylvia Earle, Ahmed Gabr, Mark Powell, Martyn Farr, and Sami Paakkari are some examples of the influential group that will share their recent contributions at the beautiful Tróia Resort.

But the venue and the fact that everything is being prepared for Diving Talks to be an event for non-divers too makes this Portuguese first edition the meeting you shouldn't miss. It will be an inclusive event: one fantastic weekend for taking your family and partners with you; hence, several side events are being prepared purposely for those who don't wish to attend the talks. Tours in the region, sailing the Sado River, or visiting wineries where you will have a taste of the best wines produced in this part of Alentejo. Better not to say more, the idea is to have divers attending the Talks.

# DIVINGtalks

Diving Talks will be a different concept also for the brands. The organization objective is to offer the attendees co-branded experiences during the weekend, giving sponsors a pretext for a more robust engagement with their audience.

Having said all this, our recommendation: don't wait to register to be part of this new event. The number of attendees is limited by the health authority recommendations.
